Reporting questionnaire

Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. Other (provide details):

Compressed working weeks and telecommuting are not a standard employment condition or practice available to employees. A large percentage of Greater Bank's employees are employed in a direct customer interface (retail branch) or a call centre position which requires coverage Monday to Saturday within particular hours. This restricts Greater Bank's ability to offer these practices to a large percentage of employees. An employee request for a compressed working week would be considered case by case on merit and in line with business requirements.
